

# JOSHUA HILL

## Projects

---

### Dark Mode/Crypto

Built using React - used custom hooks to set dark mode to local storage and then apply dark mode via a button location on the navigation.

### To-Do list

Built using React - fully function to-do list, capable of adding items, marking them as complete, and deleting the completed items.

### Movies

Built using React - a single page application created with React-Router to conditionally render components to the page, added functionality to save movies.

## Skills

---
